Jane Henney, M.D.
Commissioner
Food and Drug Administration
5600 Fishers Lane, Room 1471
Rockville, MD 20857

We are writing to you to state that we are in favor of the FDA promptly approving claims filed for saw palmetto and the symptoms of benign prostatic hyperplasia; psyllium husk seeds and the risk of heart disease; folic acid, vitamin B6 and vitamin B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease. We feel that is important to use truthful health claims on the labels of nutritional supplements.

This judgment will directly affect people lives. So please make your decision based on what the American people want, not the drug companies who already make huge profits off their drug sales.

Thank you .

Sincerely yours,

Mr. and Mrs. Keith Fisher
